Case Management and Social Work

Spring Conference and Vendor Fair

March 30, 2011

Mets Center, Erlanger, KY

Session Descriptions

Session 1:

Emerging Value of Care Management

Yvonne Focke, BSN, MBA

Learning Objectives:

- Understand Care Management's role and impact on a hospital's financial outcome.
- Describe how Care Management is responding to our increasing regulatory environment.

Session 2:

An Interdisciplinary Approach to Managing the Chemically Dependent Patient in the Acute Care Setting

Kip Hatcher, M.A., CADAC

Learning Objectives:

- Identify types of substance involvement.
- Identify 3 risk factors for dependence in adults.
- Differentiate between substance abuse and dependency.
- Identify brief interventions that will impact length of stay and prevent readmission.

Lunch & Session 3:

Ethical Decision Making in Complex Cases

Dana Moran, CSW, LISW

Learning Objective:

- Explore varied interventions when working with complex discharge needs.
- Identify ethical implications of imperfect discharge plans and limited resources.
- Identify different community resources used in working with complex discharge needs.

Session 4:

Understanding SSDI and the Impact on the Hospital Revenue Cycle

Jennifer Boyer

Learning Objectives:

- Recognize history of SSDI and how SSDI differs from SSI to effectively evaluate disabled individuals and connect them with appropriate resources.

- List the disability criteria established by the Social Security Administration.
- Define benefits associated with receiving SSDI.
- Participate in discussion that compares time lines and delays associated with SSDI application and appeals process with an emphasis on early intervention for chronic insured patients.
- Understand the impact SSDI can have on revenue cycle.

Overview

This program is designed for nurses and social workers who are interested in promoting a collaborative practice of Hospital/Health System based Case Management.
